Project Group 4

Jelínek, Jakub J.
Nikolova, Rositsa R.P.
Toderaşcu, Iulia A.I.M.
Wang, Mike M.

Checkpoint 4   Sprint 4   14-12-2022   ☺

This was a good sprint for me. I could have finished the whole algorithm for reading license plates and sending SMS messages to the visitors if I had put more time into it perhaps.

Very good job on integrating the license plate reader with the back-end application. Very persistent and solving technical problems quickly. Very good communication with other team members.

Worked on uniting the license plate reader and IR sensors as well. Did a very good job and we can see significant improvement. Good job!

Daniil has connected the camera system to our application. He is working very well.

Tops:
The license reader in the backend looks neat
Tips:
Try to make the update on the license reader more clear what changed compared to last time

Checkpoint 3   Sprint 3   05-12-2022   ☺

Very happy with this sprint, managed to finish the camera system.

Very nice progress on the license plate reader. Good strategy and planning for this task. Daniil shows professional attitude in meetings.

Daniil worked very hard on the camera system. He has successfully created crucial part of the system which we will implement in the later stage. Communication with him is very good.

Worked on the license plate reader part of the parking system. It was very interesting and we could see the amount of work that was put into it. Very good job!

Tops:
-Good progress on the license reader
-Managed to finish all tasks
-Communication
-Keeping documents up to date
Tips:
None so far

Checkpoint 2   Sprint 2   16-11-2022   ☺

I'm happy with my performance this sprint. I showed more initiative and contributed more.

Tops:
Communication
Good test document/strategy
Asked for help when needed
Following the code rules of backend
Tips:
None so far

Daniil has finished all of his tasks. He shows that he is in control of what he is doing. Good communication with the other team members.

Daniil works very well, he is very productive, always there when help is needed.

Contributed a lot on the back-end and always is focused on his tasks. Comes with good ideas and helps the team in focusing on its goals.

Checkpoint 1   Sprint 1   05-10-2022   ☺

Everything that was asked of me was finished, but I could have shown more initiative and done more work.

Handled his tasks very well. We have a good and efficient communication, helped in every aspect of the project.

Daniil took the initiative for organizing the meetings for the whole project and helped with the set up of the git repository and the CI pipeline. He also checked if everything is fine with our delive... **Read more**

Tops:
-Communication
-Documentation
-Leading group meeting
-Knows what needs to be done
Tips:
None for now

Daniil is working very well, he is reliable and does what he is told to do. He delivers at time and shows lot of effort
